

March TAC Meeting

PHIL CONRAD, AICP
CABARRUS-ROWAN MPO
MARCH 26, 2025

Updated 2055 MTP Draft Projects List

- 2055 MTP Projects List presented in January preceding release of the Draft STIP
- Adjustments to revenue and projects costs were made using the Draft STIP
- Staff memos for highway and transit modes include updated figures from the STIP and the LRPTM (CK Rider Transit Commission)
- Project schedule changes include moving the widening of Poplar Tent (Derita to George Liles) to 2045 horizon year, segmenting the NC 73 widening (I-85 to Poplar Tent) in 2045 horizon year

2055 MTP Projects List cont.

- Adding the 152 Bypass and the NC 73 widening (I-85 to Poplar Tent) in 2055 horizon year and removing the US 29 project (I-85 to Church)
- NC 3 (DE Blvd to NC 73) remains unfunded or post 2055
- Costs continue to escalate and the amount of remaining funds or cushion for the 2 county area is less than \$40 million to absorb those costs

Transit Financial Picture

- All transit route and service extensions from CK Rider LRPTM were included in the 2050 MTP
- 7 routes were coded in 2025 and are scoped for 2035 horizon year given the lack of time to implement
- Proposed 1 cent sales tax for transit in Cabarrus is now scheduled for 2030
- CK Rider will undertake an update (\$450k) to the LRTPM in calendar 2025
- Recommendations of this Plan will be folded into next MTP Update (2030)
